Earlier Customer Experience

Canadian Tire Bank
Financial Solutions Sales Specialist
Jan 2015 - Dec 2017 | Toronto, ON

Supported digital product, account, and payment inquiries; processed applications and maintained accurate customer records under privacy and compliance procedures.

Professional Summary

- Customer-facing technology professional with 3+ years of Level 1 and Level 2 technical support and 8+ years across startup operations, telecom, technical sales, and financial services. Owns issues from intake through troubleshooting, follow-up, escalation, and resolution, translating technical findings into clear next steps. Experienced with SaaS and application support, Freshworks, Shopify, CRM records, Slack/Notion coordination, Windows, Microsoft 365, Active Directory, networking, REST APIs, and automation.

Customer & Technical Experience

Smart Cocoon Inc.
Technical Support & Operations Specialist

2025 - Present
Hybrid

- Act as a primary customer contact in a small technology startup, owning product, account, and SaaS workflow issues from intake through troubleshooting, follow-up, escalation, and resolution.
- Manage the Freshworks case lifecycle and maintain clear customer, troubleshooting, and resolution records; coordinate next steps with internal teams through Slack and Notion.
- Process and monitor Shopify orders, investigate related technical and operational problems, and keep customers informed while cases move toward resolution.

Outlier AI
Freelance AI Data Specialist - Technical Quality Review

Jan 2025 - Present
Remote

- Review technical content for accuracy, clarity, reliability, and instruction compliance; reproduce problems and document evidence-based corrections.
- Research unfamiliar systems, compare evidence, isolate root causes, and communicate concise recommendations independently in a remote environment.

Nordia / Bell Support Program
IT Support Technician

Sep 2021 - Jan 2023
Toronto, ON

- Managed Level 1 and Level 2 requests from initial symptom gathering through troubleshooting, resolution, or escalation across Windows, Microsoft 365, email, access, hardware/software, VPN, Wi-Fi, and business connectivity.
- Diagnosed identity, endpoint, and network issues involving Active Directory, DNS, DHCP, routers/modems, and latency; documented actions, results, and escalation context.
- Explained technical findings and next steps clearly to non-technical users while maintaining accurate ticket histories and solution-focused communication.

iMarketing Solutions
Client Solutions Advisor (Technical Sales)

Jan 2018 - Jul 2021
Toronto, ON

- Assessed customer needs, service requirements, and budgets, then explained product capabilities and limitations and recommended suitable options.
- Maintained CRM histories, pipeline notes, and follow-ups while coordinating with sales and service teams and supporting long-term client relationships.

Technical Support Projects

API & Support Automation
Python | PowerShell | Bash | REST/FastAPI | Git

Built health checks, validation, logs, and repeatable workflows for reproducing and troubleshooting application issues.

Application & Cloud Support Lab
Windows/Linux | DNS | Azure/AWS Fundamentals

Used logs, service checks, network diagnostics, and documented procedures to isolate access, service, and connectivity problems.

Education

Computer Systems Technician
Seneca Polytechnic
Diploma | 2023 - 2025

Network Administration
CIMT College
Diploma | 2022 - 2023
